COLLECTION AND USE OF NON-PERSONAL INFORMATION

How We Collect Non-Personal Information

When you visit the Site, and during your interactions with the Site, we may collect Non-Personal Information from you. "**Non-Personal Information**" means a data element or collection of data elements that by itself cannot ordinarily be associated with a specific individual. Non-Personal Information includes by way of example but not limitation, the Internet browser or computer operating system you are using, the pages of the Site and other sites that you access, the amount of time spent on various portions of the Site, and certain Site data captured through your interactions with the Site and other sites. Non-Personal Information may include information provided by you through the Site or otherwise (e.g., through a third-party site) that is not Personal Information or Protected Health Information. Certain Non-Personal Information may be collected on an aggregated, anonymous basis through web server logs, cookies, ad servers, tracking pixels, web beacons, and similar Internet tracking devices (collectively "**Tracking Mechanisms**"). Web servers automatically collect Non-Personal Information, with your IP address, when you request pages of the Site or other sites. Based on certain interactions with the Site, third-party sites, mailings, other communications with us, and/or system configurations, certain Non-Personal Information may be associated with your Personal Information such that your Non-Personal Information is identifiable with you. You may be able to opt-out of certain third-party associations by following customization and/or opt-out options as described below.

How We Use Non-Personal Information

The Tracking Mechanisms and the Non-Personal Information collected through their usage may be used by us and our affiliated companies for a variety of analytic and developmental purposes including to improve and enhance the Site and our products and services, to create new products and services, to customize your experience on the Site and other sites that you visit on the Internet, to identify and/or offer products, services and website functionality that may be of interest to you, and other legitimate business purposes.

We may use different kinds of cookies including session ID cookies and persistent cookies. Session ID cookies are used to personalize your user experience, to determine ways to improve the Site, Site content, and the services offered through the Site. These cookies are

deleted from your hard drive when you close your browser session. Persistent cookies are used to collect non-personally identifiable information such as Internet Protocol (IP) addresses, browser type, Internet Service Provider (ISP), referring/exit pages, platform type, date/time stamp and number of clicks.

You may set your browser to accept cookies, warn you when a cookie is sent or turn off all cookies (except Flash cookies). Check your browser's help menu or your mobile device settings to find out how. Some mobile devices store cookies not only in areas connected to the browsers but also in an app-specific area, so you may have to check your app settings options to determine how to manage or delete cookies stored in these other areas. If you do not accept cookies, some features, services or activities available through the Site may not function correctly and you may be unable to access certain content.

We may embed tracking pixels within various pages of the Site to enable use of site analytics. The site analytics enable us to determine the usage frequency of various areas of the Site and identify areas of the Site for enhancement. While you are visiting and after you leave the Site, we may use web beacons to notify you of areas of the Site and other aspects of our organization and its affiliated companies in which you may be interested. Certain tracking pixels and web beacons may be cleared or reset through configuration of your web browser such as by clearing your cache. We may use ad servers to provide you with offers of possible interest.

We use your IP address so that we can send data (such as the pages you request) to you and collect Non-Personal Information during the process. We aggregate this Non-Personal Information with similar Non-Personal Information collected from other users to track overall visitor traffic patterns and help us understand Site usage and preferred and most frequently used pages, products and services, to provide you with better service, to improve Site use and functionality, and to provide you with information on other products and services that may be of interest to you.

We may analyze Non-Personal Information in the aggregate to study outcomes, costs, and provider profiles, and to suggest benefit designs for employers or health plans. These studies may generate Aggregate Data (described below) which we may utilize for a variety of purposes.

We may use these analyses to generate Aggregate Data from the original Non-Personal Information. "**Aggregate Data**" is summary level data, such as the number of web visitors in a specific geographic area. Aggregate Data does not contain information that can be used to identify or contact you, such as your name, address, telephone number or e-mail address, and does not reflect the original form of the Non-Personal Information collected from you.
